

# **“At Last, You’ll Never Have To Leave Your Home For Drywood Termite Treatments Again”**

Hi, I’m Chet Rowland, owner of Chet’s Termite & Pest Management. I’ve been killing termites in the Tampa Bay Area since I was a 14 year old boy and I’ve owned/operated my company for over 30 years.

As you can imagine, in the 42 years I’ve been in the business, I’ve tented A LOT of homes for drywood termites. Perhaps, I tented your home in the past or you know someone who has a house or office building I’ve tented.

During the years, I’ve listened to customers complain about what a pain in the butt it is to prepare for the tenting.

Believe me, I know it’s a hassle and it really sucks!!! *Bagging your food... moving out for 3 to 4 days...boarding your pets... giving up your house keys to a complete stranger...and the list of hassles go on and on.*

But, I didn’t believe in any other treatment method.....UNTIL NOW.

After 41 years, a year of research and many, many trips to California, I’ve finally discovered the ONLY alternative solution to termite tenting. That’s right, NO MORE TENTING!! That sounds good, doesn’t it??

**In a recent customer survey, here’s a partial list of what my clients and prospects said they dreaded about having their house tented with a deadly, corrosive, toxic gas. Which of the following do you want to avoid dealing with?**

**“OUR EXCLUSIVE IRON-CLAD, NO WIGGLE ROOM, SIMPLE, STRAIGHTFORWARD, ORGANIC XT2000 ORANGE OIL DRYWOOD TERMITE GUARANTEES.”**

Here's the bottom line, I guarantee you we will eliminate the drywood termites in any area we treat or I'll retreat it for free and refund 100% of your initial investment if **live** drywood termites are found in the area originally treated within the first year. You will not find ANY company willing to match these guarantees. Here are the details:

1. **GUARANTEE #1:** If, within *one* year of your 1st treatment, we uncover LIVE drywood termites in the same wood previously treated with XT2000 Orange Oil, I will re-treat that area for FREE and **Refund Your ENTIRE Initial Investment.** (See Testimonials!!)
2. **GUARANTEE #2:** Anytime during your active service agreement we uncover a LIVE colony of drywood termites in the structure originally treated, we will re-treat for FREE.... ***EVEN IF YOU SELL THE HOME AND MOVE OUT!***(See Testimonials!!)

Frankly, there's no way on earth I could afford to do this-unless I was successful at making homes just like yours drywood termite-free and at keeping customers for life. Which I am. So, take note: There's no fine print here. No little asterisk marks like this (\*) with footnotes in tiny type. No "weasel clauses". No attorney language. I guarantee any area we treat to be free of live drywood termites PERIOD. And, incidentally, I have a standing offer for any other termite & pest control company: Prove that you've matched and honored an identical guarantee for at least 5 years in this area and I'll donate \$500.00 to any charity of their choice.

Signed:

CHET ROWLAND

**“How Can We Absolutely Guarantee YOU A Drywood Termite Free Home And Keep That Promise, When Most Other Termite & Pest Control Companies, Even "Big Names", Have All Kinds Of Sneaky Fine Print And Escape Clauses In Their Contracts, Pile Up Consumer Complaints At The Better Business Bureau, And Simply Fail To Honor Their Promises?”**

Yes, the guarantees above are real, straightforward and have been honored for 30 years, as we've served well over 37,982 Florida customers. Many stay with us for life. 92.7% of our new business comes from referrals. Just like you probably have. **Why?** Because, on top of very courteous and reliable service by the most experienced technicians in the industry that I personally trained, my company flat-out delivers on its guaranteed promise of a drywood termite-free home. How can we do that? A big part of the answer is:

**MY UNIQUE 19-STEP TREATMENT SYSTEM THAT SIMPLY LEAVES DRYWOOD TERMITES NO PLACE TO HIDE.**

Look, a lot of companies will make you empty promises and that's about it. Watch any other company's people at work and see if they match up with MY treatment system.

**OUR UNHEARD OF IN THE TERMITE INDUSTRY \$100.00 CHALLENGE:**

Have us come and do this 19-Point Inspection with you watching, when your house has been treated by any other termite & pest management company. If we don't find and point out to you important flaws with the service you have chosen, we'll pay you \$100.00.

Even more detailed information about this 19-Point Inspection is available at [www.chetspestcontrol.com](http://www.chetspestcontrol.com) or in a brochure available on request

**QUESTION: “CAN I GET BY WITH A LESS THOROUGH AND CHEAPER SERVICE?”**

Maybe. But you'll find our prices are about in the middle of the market, not the cheapest but definitely not the highest, and there are NEVER hidden charges or surprises, or “low ball” quotes then lots of “up-selling.” Our over 30 years in business and over 37,982 customers say: our prices are fair. More importantly, the costs of settling for a “bottom-barrel”, cheap service that basically just gives you empty promises can be very, very high—from just the annoyance of paying for a hotel room for several nights, cost of eating out and the inconvenience of being out of your home for several days. ...to having termites do very serious damage before you know what hit you. Saving a dollar or two and settling for less than our proven, NO RISK, MONEY BACK GUARANTEED service really is no bargain at all. **Think about it. This is too important of a service to be cutting corners**
