

P.S. **\$225 of free services.** Remember , you must call within the ten days, or by the Bonus Date stamped in red on the Bonus Certificate (*see below*), to receive your \$225 worth of free bonuses.

P.P.S. **No Smells, No Nothing.** All the talk of zapping and killing bugs may be leaving you with the wrong idea. You may be thinking your family and pets may get harmed. Not so. All treatments use the least toxic products and are environmentally safe. Otherwise, the Environmental Protection Agency would go ballistic. Let me assure you, I use only those products that have been certified as non-allergenic, odorless and ecologically friendly. Most of these products, in fact, work by natural methods

P.P.P.S. Choosing a pest management company. Okay. You want to know what are the four key measures of an outstanding pest management company? Let me tell you. Make sure you ask to see **some testimonials from happy clients** and the company:

1. Has been certified by the Florida's Department of Agriculture. To make certain, ask to see a certificate. (*Don't forget, the certificate can't be bought, only earned.*)
2. Uses environmentally friendly materials and treatments.
3. Has an affordable, value-based maintenance program.
4. Offers a rock-solid, money back guarantee. If you are not 100 percent satisfied, they should re-treat for free AND refund your money. Ask to see their testimonials like I've shown you.

Bonus Date:

**A \$225.00 VALUE**
